DETAILED ACTION

Response to Amendment

1. The declaration under 37 CFR 1.132 filed August 6, 2004 is sufficient to overcome a rejection of claims 1-20 under 35 U.S.C. 102(a).

Response to Arguments

2. Applicant's arguments (see pages 7-10, filed March 24, 2004), with respect to claims 1-20, have been fully considered and are persuasive. The rejection of claims 1-20 has been withdrawn.

Allowable Subject Matter

3. Claims 1-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-20 is the inclusion of the limitation, "said interposer card is constructed to reduce the reflective wave path from the daughter card to the interposer card, thereby reducing the impedance mismatch and thereby allowing the noise to settle in time for the interposer card to output, in response to receiving a reflective wave, an incident wave switching at said slot connector." The prior art references are not directed to an interposer card constructed in the manner claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
